

# Out now • Upgrade now!

- 30%** Up to 30% lower ink costs with Ink Saver\*
- 4x** Up to 4 times more productive in the creation of RIP data with the Parallel Process Manager\*
- 5x** Up to 5 times faster data transmission for DFE-controlled printer systems\*

## Now even more productive, more cost effective, more efficient:

Productionserver 6 is here – and its sensational new functionalities provide for an enormous performance thrust in any LFP production environment.

- ▶ Save up to 30 % in ink costs with Ink Saver, the exclusive GCR technology from ColorGATE for the digital LFP production market\*
- ▶ Boost your productivity in generating printing data with the integrated Parallel Process Manager up to a factor of 4\*: The automated assignment of free RIP processes reduces breaks in production to an absolute minimum.
- ▶ Get up to five times faster the data transmission for DFE-controlled printer systems\*: Thanks to an optimized printing rate via TCP/IP, it's only your network card that sets the limits for high-speed data transfer.

\*The top values that can be achieved compared to Productionserver 5. Lower values are possible in the production plant.

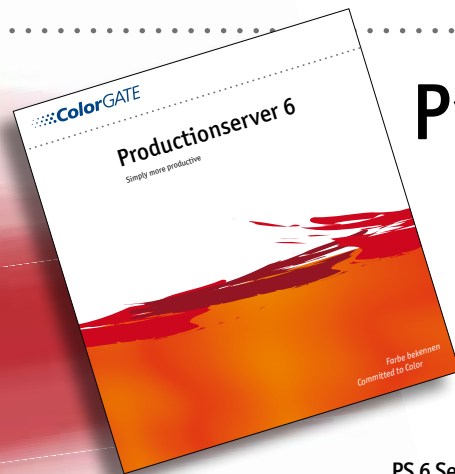

## Productionserver 6: Attractive upgrade bonus for smart decision-makers

In the new Version 6, the universal production RIP from ColorGATE is more efficient than ever before – make the decision to upgrade now and profit additionally from these attractive bonus offers\*:

- ▶ € 100 Loyalty bonus on all upgrade orders
- ▶ 15 % price discount on all Ink Saver orders
- ▶ 25 % price discount on orders of 3 additional RIP processes (RIP Process 3 Pack) in combination with the upgrade of your ColorGATE product license
- ▶ 30% price discount on orders of the Profiler PFM module in combination with the upgrade of your ColorGATE product license

\*All bonus offers are available exclusively to previously registered ColorGATE product licenses.

*Farbe bekennen  
Committed to Color*

## Productionserver 6: The product family continues to grow

### Benefits at a glance

Whether digital large-format printing or screen printing, outdoor production or interior design, pre-printing or fine-art reproduction – regardless of what your business focus is, Productionserver 6 offers all printing service providers future-proof solutions for greater productivity, optimal color competence and higher added value. The following arguments also speak in favor of the upgrade:

- ▶ Automatic correction of transparency problems in PDF files
- ▶ Profiler PFM was improved even further for Version 6 – for absolutely brilliant color reproduction on all solvent, eco-solvent, UV and latex printing systems; the update of existing PFM licenses is included free of charge in the Productionserver upgrade
- ▶ Replace existing Cat. 1 printer drivers on request free of charge
- ▶ Free upgrade of modules purchased for Versions 4/5
- ▶ Complete compatibility with all MIMs and profiles from Versions 4 and 5 ensures the reproducibility of jobs processed using these earlier versions.

With its new solutions and editions, Productionserver 6 is now even more closely geared to the needs of a wide variety of different applications:

### PS 6 Select

The powerful software RIP for in-house and corporate users. Equipped with: 1 x Hotfolder · 1 x queue · 1 x RIP Process · 1 x Cat. 1 printer driver · Incl. MDS

### PS 6 Pro

The efficient practical solution for all types of large-format printing. Equipped with: 10 x Hotfolders · 2 x Queues · 2 x RIP Processes · 2 x Cat. 1 Printer drivers · Incl. Tiling · Container · MDS · Color Replacement · Color Correction

### PS 6 Ultimate

High-quality large-format printing plus additional ICC profiling according to industrial standards. Equipped with: 20 x Hotfolders · 4 x Queues · 4 x RIP Processes · 4 x Cat. 1 Printer drivers · Incl. Tiling · Container · Profiler PFM · Express Profiler EPFM · Quality Assurance QAM

### PS 6 UXT

For productions according to the international standard of highest visual quality; integrated support for cutting plotters and tables made by leading manufacturers. Equipped with: 40 x Hotfolders · 4 x Queues · 4 x RIP Processes · 2 x Cat. 1 Printer drivers · 2 x Cat. 1–3 Printer drivers · Incl. the following Proofgate modules: PGM · Profiler PFM · Express Profiler EPFM · Print and Cut PCM · Quality Assurance QAM · Cost Calculation CCM

### PS 6 Ultimate 2 Host · PS 6 UXT 2 Host

The innovative licensing model: Now use Productionserver 6 at the same time on two host computers – and maximize your productivity.

### PS 6 Edition concept

Complete PS 6 performance, first-class range of features – and perfectly geared to your printing system thanks to the corresponding Printer driver. Available: PS 6 Mutoh Edition · PS 6 Roland Edition

### and now brand-new:

PS 6 HP L25500 Best Price Edition · PS 6 HP L25500 Producer Edition – exclusively designed for the HP Designjet L25500, the brand-new latex LFP system solution.

**Now save up to  
an amazing € 3,500!**

Secure your competitive edge and cash in on sensational price discounts with a vertical upgrade – e.g. from PS 5 Select to PS 6 Pro or from PHG 5 Pro to PS 6 Ultimate.

Upgrade prices include the exchange of printer drivers in Category 1. Printer drivers in Categories 2 and 3 require additional licenses. All prices are Recommended Retail Prices (RRP) excl. VAT and without obligation. Please note that further costs could be applicable such as custom clearance, courier costs and service charges. Upgrades will be shipped out starting at the beginning of December 2009 in the sequence that orders are received.
